

Michelangelos Notebooks: The Poetry, Letters, and Art of the Great Master

In the same format of the best-selling Leonardos Notebooks, which has 320,000 copies in print worldwide, Michelangelos Notebooks is an illustrated record of the artists life and work. Michelangelo is considered one of the greatest poets of the sixteenth century. He also filled hundreds of sheets of paper with exquisite drawings, many of which went on to become some of the most celebrated masterpieces of all-time. Organized chronologically, this collection combines the artists own words with his sketches and finished artwork. His letters about the Sistine Chapel and Pope Julius, for example, will be illustrated with sketches he would have been working on at the time he was writing. The writing and art is selected by Carolyn Vaughan, former editor at the Metropolitan Museum of Art, who provides fascinating commentary and insights into the material throughout the book.
