

## El Zoo Visual (Estudios de Television) (Spanish Edition)

Es facil constatar que el publico se esta distanciando cada vez mas del espacio publico por la creciente falta de credibilidad del discurso politico. Como consecuencia de ello, la television tiende a alejarse del modelo informativo para derivar hacia una representacion espectacular de la realidad. Cediendo a estas preferencias, lo politico se ve desplazado por noticias de microsociologia y programas de entretenimiento. Asi, sucesos de todos los colores -rosa, amarillo o negro- se entretujan en el discurso televisivo actual. Esto anima tambien a crear programas hibridos, como los talk shows, donde entran todos los niveles de representacion de la realidad, incluyendo cultura, diversion, politica o cotilleo. La television se convierte asi cada vez mas en espejo del sujeto social, creando un circuito cerrado entre medio y espectadores en el que apenas queda una apertura para otras realidades. El autor presenta un analisis muy detallado fundado en los conceptos y teorias de la comunicacion y en la estetica audiovisual. Si bien sus diagnosticos, que definen el espiritu de nuestro tiempo, resultan preocupantes, este estudio puede ser un valioso instrumento para una critica de ese medio.
