

Number Sense & Place Value, Gr 3 - Math Games Galore

10 Matching Games That Reinforce Basic Math Skills. Quick to prepare and easy to learn, the games in Math Games Galore make learning new math skills fun. Like the classic memory game, the objective is to find the most pairs of matching cards using visual recall. Every game plays by an identical set of rules and directions, so once students learn how to play one game, they have learned how to play all 10 games. Great for learning centers and family math night.
