

Mathematics Matters Grade 4 Learners Book

Mathematics Matters is a resource for the MLMMS Learning Programme. Confidence and ability in mathematics are encouraged by building on learners prior knowledge and by using familiar contexts. Features of the Learners Book Mathematical concepts are introduced by means of hands-on, real-life situations. Integration across the Learning Areas gives scope for intriguing contexts to be explored in mathematical ways. Core concepts are reinforced. Learners acquire problem-solving skills and apply these. Activities are supported by illustrations. The Lets check feature at the end of units helps to reinforce success. Features of the Teachers Guide The Teachers Guide provides a summary of how to teach MLMMS in an outcome-based classroom. Specific Outcomes and Assessment Criteria are given for each module. Educators are given guidance on how to assess. Specific ideas on the integration of mathematics with other Learning Areas are provided.
