

Cooperative Learning and Social Studies: Towards Excellence and Equity Grades 6-12

Written by the Outstanding Teacher of the Year, this book is an excellent guide for making social studies exciting and active, while covering course content. This book will show you how to use cooperative learning strategies to make your social studies classroom come alive. Each of the 24 cooperative strategies includes an in-depth description, steps, activity ideas to use the strategy with other social studies content, and a lesson with ready-to-use blackline masters. Lessons are designed to teach the themes recommended by the National Council of Social Studies including issues, geography, historical events, historical characters, and current events. Also includes how to get started, how to manage the cooperative social studies class, what to do for assessment and evaluation. A favorite for middle and high school social studies teachers!
